

Dinner is served.

If you didn't wash your hands, your customers may as well eat here.

***1 in 3 customers don't wash their hands after using the restroom.*
When they leave the table to use the restroom,
they often bring a little something back.
Don't carry their fecal matter home or to your next customer.***

**Wash hands thoroughly.
Dry with a paper towel.**

*According to an observational study conducted by Wirthlin Worldwide, only 67% of adults wash their hands after using the restroom. Improper hygiene can lead to foodborne illnesses.
